ANNUAL ADMINISTRATION

AND

PROGRESS REPORT

ON THE

LUNATIC ASYLUMS IN THE BOMBAY PRESIDENCY

FOR THE YEAR 1891.

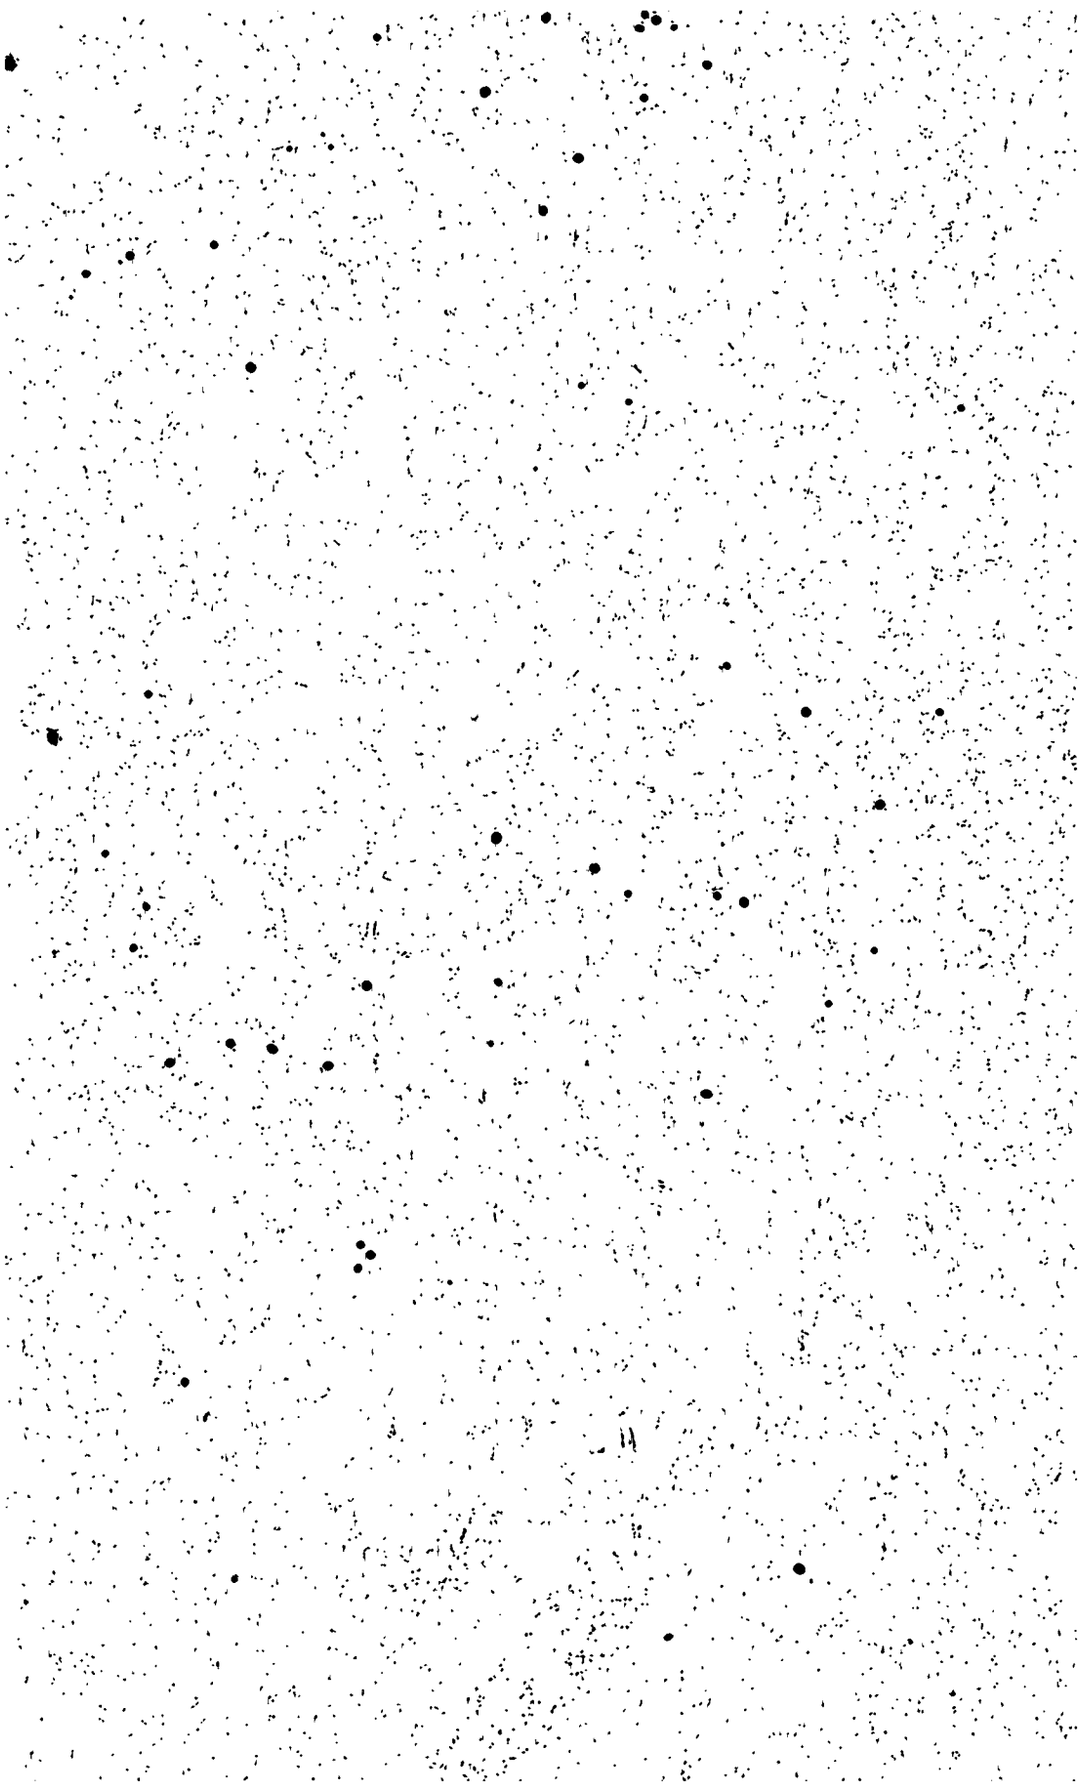
6-7
JJ-K-25

Bombay:
PRINTED AT THE GOVERNMENT CENTRAL PRESS.

1892.



No. $\frac{S.\ B.}{183}$ OF 1892.

FROM

THE SURGEON GENERAL WITH THE
GOVERNMENT OF BOMBAY;

To

THE CHIEF SECRETARY TO GOVERNMENT,
General Department,
Bombay.

Bombay, 14th April 1892.

SIR,

I have the honour to submit to Government my Administration Report on the Lunatic Asylums for 1891.

2. The asylums have been kept in good repair during the year. At the Colába Lunatic Asylum new latrines and bath-rooms for the European wards have been built at a cost of Rs. 1,632-15-3. At Poona a verandah has been added to the female portion of the asylum, which shelters the patients while the wards are being cleaned and aired. At Dhárwár additional accommodation is being provided for 30 more insanes. The total space will then be for 62 persons. It will now be necessary to allow the outer enclosure to be used as a recreation yard. The compound and garden hedge must be made secure and a proper main gate must be provided. The old latrines are to be removed and new ones built, while bathing platforms will be provided for the male and female patients. At Ahmedabad the drainage of the courtyards to carry off the monsoon rain has nearly been completed. At Ratnágiri the alterations and improvements to the cook-rooms were completed. At Hyderabad one of the pendalls has been converted into four cells, and the floors of the dispensary, office, and the verandah have been paved with unglazed tiles.

3. The water-supply is good at all the asylums and in most cases has been abundant. At Colába the water-supply was scanty during the hot weather, the auxiliary tank was not as useful as was anticipated owing to deficient pressure in the mains. During the hot weather the supply was supplemented by municipal water-carts. At Ratnágiri the municipal water-works supplied only 1,750 gallons daily instead of 3,000. This is not sufficient, and to supplement it a Pukháli Bhisti is employed to bring water, and lunatic labour is also utilised to draw water from the well in the jail compound. When the asylum is full the full quantity of 3,000 gallons from the municipal water-works will be required.

4. Government in Resolution No. 2077, dated the 10th June 1891, sanctioned new diet scales for each asylum, instead of one diet scale for all the lunatic asylums. These new scales are very suitable, and the new arrangement is working satisfactorily.

5. The annual grants for entertainments and improving the happiness of the inmates of the asylums are carefully expended by the Superintendents. The inmates appreciate the games, music and pictures provided for them, and these amusements are believed to be of some benefit in the treatment of certain forms of lunacy.

6. The statements at the end of the report give statistical information about the lunatics, and I beg to make the following general summaries on these tables:—

Statement No. I shows that during the year the total population was 961 against 1,006 in the previous year. Of these, 786 were males and 175 females. On 1st January there remained 562 males and 128 females: 209 males and 43 females were admitted and 15 males and 4 females re-admitted. 156 males and 26 females were discharged. Of these, 74 males and 16 females were cured, 80 males and 10 females were transferred to friends (69 males and 8 females improved and 11 males and 2 females not improved), and 2 males escaped. 57 males and 13 females died against 66 males and 12 females in 1890. At the end

of the year there remained 573 males and 136 females. The daily average strength was 580·3 males and 133 females—total 713·3 against 706·1 in 1890.

The percentages of cures and deaths to the daily average strength were:—

Cured ...	Males	12·7	Total	12·6
	Females...	12·0		
Died ...	Males	9·8	Total	9·8
	Females	9·7		

The percentages to admissions were:—

Cured ...	Males	33·0	Total	33·2
	Females...	34·0		
Died ...	Males	25·4	Total	25·8
	Females...	27·6		

Statement No. II gives details of criminal lunatics. On 1st January 1891 there remained 93 males and 9 females, while 27 males and 3 females were admitted, making 120 males and 12 females—total 132, or 3 less than in the previous year. No criminal insanes were admitted in the Ratnágiri and Dhárwár Asylums. Three criminal lunatics were admitted into the Poona Lunatic Asylum. 16 males and 4 females were discharged, transferred, &c.; 5 males and 1 female died, and 99 males and 7 females remained on 31st December 1891. The daily average strength of these insanes was 95·4 males and 8·6 females—total 104·0 against 103·0 in the previous year.

Statement No. III gives the religion, sex and residence of the insanes admitted during the year. The total Christian population numbered 74. Of these, 52 were Europeans, 5 Eurasians and 17 Native Christians. The majority of the Europeans were soldiers, sent to Colába Asylum from all parts of India. The number of Hindus was 112, of Mahomedans 68, of Pársis 13 and of other castes 4.

Statement No. IV gives the previous occupation of the insanes admitted. Beggars furnished the largest number of admissions—33. 36 were European soldiers, 34 labourers, 16 tradesmen of various denominations, 15 servants and 13 cultivators. In 28 cases the occupation is not known.

Statement No. V gives the ages of the lunatics admitted according to sex. Under 20 there were 12 insanes, between 20 and 40, 187, between 40 and 60, 61, and above 60, 11.

Statement No. VI exhibits the various types of insanity. The following table gives the types of insanity and the result of the treatment of each form:—

	Remained.	Admitted.	Total.	Recovered.	Improved.	Died.
Mania	256	126	382	41	25	29
Melancholia	55	48	103	12	27	6
Dementia	170	27	197	8	12	14
Idiocy	27	10	37	2	1	2
Epileptic insanity	24	5	29	...	1	2
Charas smoking	6	2	8	...	...	2
Gánja smoking	69	26	95	14	4	3
Use of bháng	39	4	43	4	2	7
Opium eating	6	2	8	1	...	1
Spirit drinking	29	20	49	6	5	3
Other types	9	1	10	2	...	1
Total ...	690	271	961	90	77	70

Statement No. VII shows the alleged causes of insanity among the lunatics. Of a total of 961 lunatics, the cause was only ascertained in a little more than half the number (488 being known causes and 473 unknown causes). Of the known causes, 392 are attributed to physical and 96 to moral causes. Of the former, the abuse of spirits and use of intoxicating drugs is alleged as the cause in 203 cases; fever is the cause given in 35, epilepsy in 26, previous attack in 21, destitution in 20, and masturbation in 14. The disease was hereditary in 27 and congenital in 21 patients. Of moral causes, grief is the alleged cause in 67, anger in 9, fear in 8, religion in 5, loss of money in 3, jealousy in 2 and anxiety and study in 1 each. The following are the causes, as far as is obtainable, leading to insanity confined for crimes of violence:—

Gánja smoking	... 10	Hereditary	... 3
Opium eating	... 1	Grief ...	... 2
Spirit drinking	... 4	Anger ...	... 1
Fever ...	... 2	Religion	... 1
Puerperal fever	... 1	Jealousy	... 1
Epilepsy	... 3	Fright ...	... 1
Injury ...	... 1	Anxiety	... 1
	Unknown ... 38		

Statement No. VIII. is a return of the sick (for other diseases than insanity) treated in the asylum hospitals. On 1st January 1891, 50 patients were under treatment, 441 were admitted, making a total of 491 against 540 in 1890. 374 patients were cured, 1 was transferred to the care of his friends, 70 died and 46 were under treatment on the last day of the year. From the above it will be seen that in the year under report the inmates were more healthy than in the previous year. The chief causes of admissions were ague 170, dysentery 39, debility 33, influenza 31, diarrhœa 30, bronchitis 22 and abscess 15. Of the 70 deaths there were 18 from dysentery; 12 from diarrhœa, 7 from debility, 6 from old age, 4 from pneumonia, 3 each from remittent fever and exhaustion, 2 each from anæmia, epilepsy, phthisis and bronchitis, and 1 each from cholera, tubercle of lungs, leprosy, paralysis, valve disease of the heart, fatty degeneration of the heart, gangrene of lungs, melæna and suppurative arthritis.

Statement No. IX. is the cash account of the asylums for the year. The total expenditure was Rs. 1,27,424-15-10 against Rs. 1,29,172-4-11 in 1890. This will not tally with the total given in the last year's report as the estimated value of petty labour carried out by the insanes, included in column 20 by the Superintendent of the Colába Lunatic Asylum, has been deducted from the sum given and a new column for the sums realized by the sale of manufactured goods and remitted to the treasury, has been added to the table. Establishment cost Rs. 42,234-3-6 against 44,479-4-5 in the previous year. There is also a decrease of Rs. 171-0-7, Rs. 174-15-4 and Rs. 87-11-4 in the cost of diet, clothing and bedding and medicines respectively. Contingencies amounted to Rs. 9,255-7-4 against Rs. 7,881-5-3 in 1890. The last year's total does not tally with that given in the last report for the reason above stated. The following is the abstract of cash account required by the Government of India:—

	Daily average strength in 1891.	Establishment.		Diet.		Clothing and Bedding.	
		Total cost.	Cost per head of average strength.	Total cost.	Cost per head of average strength.	Total cost.	Cost per head of average strength.

The receipts from paying patients amounted to Rs. 12,746 against Rs. 16,076 in the previous year. The amount received by the sale of manufactured articles and remitted to the Treasury was Rs. 1,919, nearly the same as last year, and that on account of unserviceable articles was Rs. 57 as compared with Rs. 119 in 1890. Deducting the above receipts from the sum of the amounts received from the Treasury, adjusted to Government and value of articles received from the Manufacturing Department made over for the asylum purposes, the net cost to Government was Rs. 97,978-13-6 as compared with Rs. 93,010-10-7 in 1890. The increase is due mainly to the small receipt from paying patients and a large increase in the charges on account of works done by the Public Works Department in all the asylums except at Ahmedabad. The cost per patient was Rs. 137-5-8 against Rs. 131-11-6 in 1890.

The following table shows comparatively the cost of each patient at each asylum for the past two years :—

	Daily average strength in 1891.	Net cost.			Cost per head.					
					1891.			1890.		
		Rs.	a.	p.	Rs.	a.	p.	Rs.	a.	p.
Colába	280·7	55,417	8	6	197	6	9	194	6	8
Ratnágiri	69·2	8,740	5	2	126	4	9	132	15	8
Poona	97·0	10,479	9	10	108	0	7	105	6	11
Dhárwár	38·0	4,566	4	10	120	2	7	116	13	1
Ahmedabad	99·4	8,812	1	3	88	10	5	71	10	8
Sir Cowasji Jehángir, Hyderabad ...	129·0	9,962	15	11	77	3	8	69	0	10
Total ...	713·3	97,978	13	6	137	5	8	131	11	6

Statement No. X. shows the sanctioned establishment as it stood on 31st December 1891. The monthly cost was Rs. 3,399 against 3,694 in 1890. The decrease is owing to a junior officer having been in charge of the Colába Asylum during the absence of the permanent incumbent on leave and also owing to reduced allowances to the Superintendents of the Ratnágiri and Dhárwár Asylums.

Statement No. XI. shows receipts and expenditure on account of manufactures. The average number of insanes employed was 294·6 against 304·1 in 1890. The total credits amounted to Rs. 4,129-6-1 and debits to Rs. 2,328-12-0, giving Rs. 1,800-10-1 as excess of credits or profits. The net profit was Rs. 1,835-6-1 against Rs. 2,356-9-7 ; the last figure does not tally with the one given in last year's report because the sums credited for petty labour of insanes has been deducted.

Statement No. XII gives the condition of the insanes as to caste, sex and marriage. This statement is summarized in the following tables :—

TABLE I.

		Total Number.									Percentage of

Statement No. XIII, gives particulars regarding criminal lunatics. The nature of crimes were theft 30, culpable homicide amounting to murder 47, culpable homicide not amounting to murder 5, voluntarily causing grievous hurt 4, attempt to commit suicide 14, house-breaking 5, mischief and assault 9 and other miscellaneous offences 18.

7. The official visitors attended regularly during the year, but at Dhárwár it was found that there was not always present in the station a sufficient number of visitors to form a quorum of three because during the fair season many of them were absent on tour; Government in Resolution No. 713, dated 3rd March 1892, sanctioned the addition of three more to the official list of visitors. At Colába on the recommendation of the Inspector-General of Prisons, the Superintendent of the Common Jail and the Superintendent of the House of Correction were added to the list of official visitors, and a revised roster of visitors was sanctioned by Government Resolution No. 4258, dated 8th December 1891.

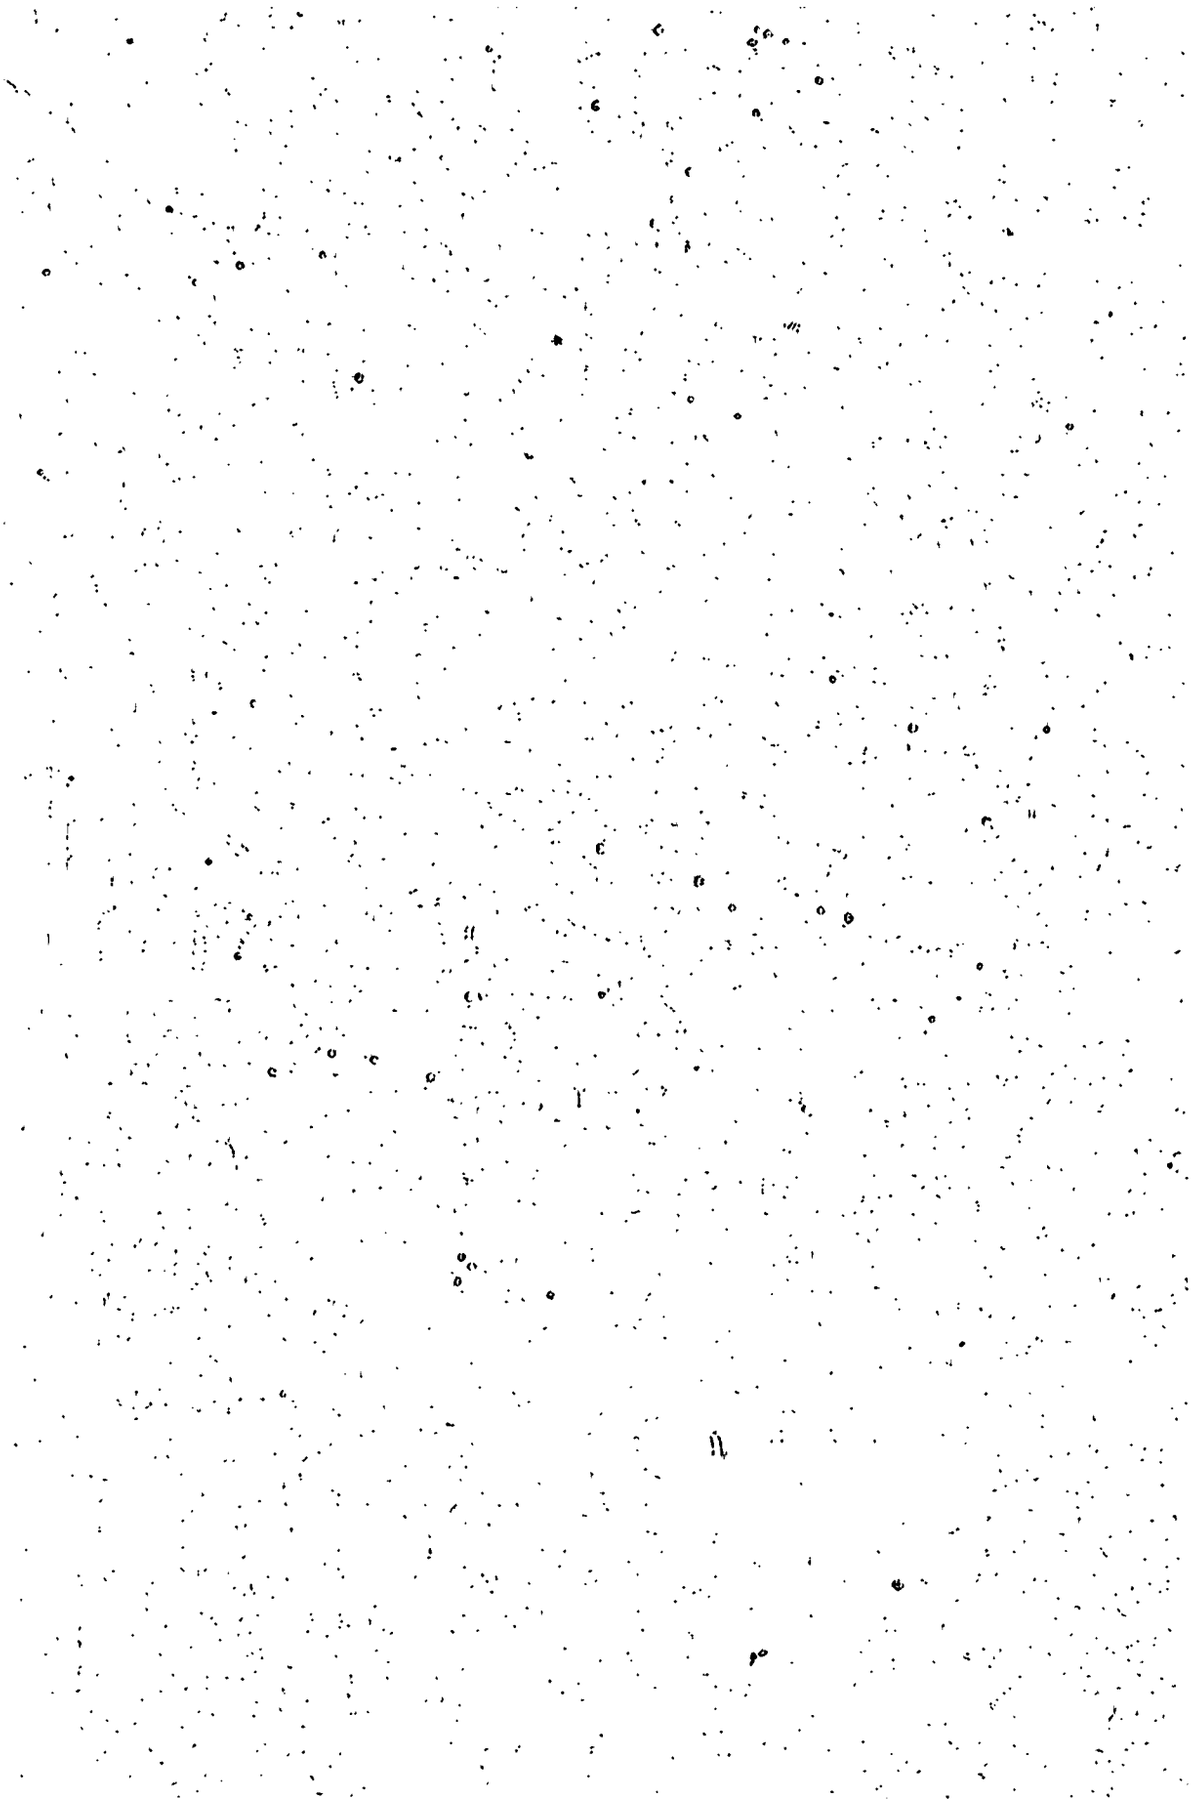
8. Brigade Surgeon Lieutenant-Colonel Hughes, while acting as Administrative Medical Officer, Sind, inspected the Hyderabad Lunatic Asylum, and I inspected the Asylums at Colába, Poona, Ahmedabad, Ratnágiri and Dhárwár. I am glad to be able again to report favourably on the very satisfactory way in which the lunatic asylums have been administered during the year by the Superintendents, who have all taken a deep interest in their duty and have, I believe, done it well.

I have the honour to be,

Sir,

Your most obedient Servant,

J. PINKERTON, M.D., Surgeon Major-General,
Surgeon General with the Government of Bombay.



STATEMENT No. I.

ANNUAL STATEMENT No. 1.

Showing separately the Admissions, Discharges, &c., &c., of Lunatics in the Lunatic Asylums in the Bombay Presidency during the year 1891 and ten previous years.

* Sent to England. † Transferred from the Criminal to Civil. ‡ Transferred from the Criminal to the Non-Criminal Class of lunatics.

Report on the Lunatic Asylums in the Bombay Presidency for the year 1891.

No. 3424.

GENERAL DEPARTMENT.

Bombay Castle, 26th September 1892.

Letter from the Surgeon General with the Government of Bombay, No. S.B.—184, dated 18th April 1892—Submitting the Annual Report on Lunatic Asylums in the Bombay Presidency for the year 1891.

Letter from the Surgeon General with the Government of Bombay, No. S.B.—214, dated 2nd July 1892—Stating the circumstances under which the cost per head of diet, clothing, &c., at the Lunatic Asylum, Colába, has been higher than at the other asylums in the Bombay Presidency.

Letter from the Surgeon General with the Government of Bombay, No. S.B.—217, dated 20th July 1892.

Letter from the Surgeon General with the Government of Bombay, No. S.B.—480, dated 12th September 1892—Submitting with reference to Government memorandum No. 2619, dated 29th July 1892, a return extracted from the Administration and Progress Report om the Lunatic Asylums for the year 1891, showing (*a*) the total number of paying patients, (*b*) the total cost of maintaining them, (*c*) the cost per head, (*d*) the total amount of fees received, and (*e*) the amount per head; and making remarks.

RESOLUTION.—The total population during the year under review was 961 against 1,006 in the previous year, the number of inmates at the commencement and end of the year being 690 and 709 respectively.

2. The report shows that increased accommodation is being provided at the Dhárwár Asylum, and that minor improvements have been undertaken or carried out at the other asylums.

3. The net expenditure by Government amounted to Rs. 97,978-13-6, or Rs. 4,968-2-11 more than in 1890, the increase being attributed mainly to smaller receipts from paying patients and increased charges on account of works done by the Public Works Department.

4. His Excellency the Governor in Council notices with satisfaction the remarks made in paragraphs 4 and 5 of the Report and the commendations bestowed in paragraph 8 on the officers in charge of asylums.

C. G. DODGSON,
Acting Under Secretary to Government.

To

The Surgeon General with the Government of Bombay,
